THE TRAVEL DISCOVERY MAP

aizaz.co

Get seen. Get chosen.

Where travellers find you, check you, ask about you and book you. And the gap in the middle where most bookings are won or lost.

GET SEEN

01

DISCOVER

They find you before they're even looking.

TikTok · Instagram · YouTube · Creators · Reddit · Pinterest · Friends' trip stories

YOUR MOVE

Be the trip they save. Real travellers telling your story beat your best ad.

02

SEARCH

They go looking. You're either there or you're not.

Google & Maps · TikTok search · YouTube search · Review sites · Travel publishers · Comparison sites

YOUR MOVE

Be findable where they search now. That's TikTok and YouTube as much as Google.

THE DISTANCE

Trust is the transaction layer.

The gap between being seen and being chosen.
AI repeats what everyone says about you.
Travellers book where the last doubt disappears.

GET CHOSEN

03

ASK

They ask someone, or something, they trust.

ChatGPT · Perplexity · Gemini · Claude · Travel advisors · Group chats · Forums

YOUR MOVE

AI repeats what everyone else says about you. Give it something good to repeat.

04

BOOK

They commit wherever it feels easiest.

Your website · Trip pages · DMs & social checkout · Email & CRM · OTAs · Loyalty

YOUR MOVE

Close the distance. Remove the last doubt, not just the last click.

THEN ROUND AGAIN, IN ANY ORDER

The funnel didn't die. It fragmented.

Travellers loop through all four, often out of order. Most brands aren't showing up in half of these places yet.

THE 12-POINT TRUST CHECK

aizaz.co

Seen? Chosen? Neither?

Twelve honest questions. Discover and Search tell you if you're being seen. Ask and Book tell you if you're being chosen. Tick only what's true today, not what's on next year's roadmap.

01 DISCOVER — SEEN

- [ ] Do you post things travellers care about beyond what you sell?
- [ ] Are real travellers and creators telling your story, not just you?
- [ ] Does your best experience show up in the feed, or only on your website?

02 SEARCH — SEEN

- [ ] Search your category, not your name, on Google, TikTok and YouTube. Do you show up?
- [ ] Does your content answer the questions travellers actually type?
- [ ] Search your brand name plus "reviews". Would you book from what comes up?

03 ASK — CHOSEN

- [ ] Ask ChatGPT and Perplexity for the best option in your category. Are you named?
- [ ] Are people saying specific, repeatable things about you on Reddit, forums and review sites?
- [ ] Could a travel advisor explain "why you" in one sentence?

04 BOOK — CHOSEN

- [ ] Can someone go from a post to a booking without starting over?
- [ ] Do you answer the last doubt (flexibility, safety, who else is going) right where they book?
- [ ] Do you stay in touch between trips, not just before the next sale?

SEEN SCORE 0–3

Not seen yet.

Relevance before conversion. Most brands are here, even big ones.

SEEN 4–6 · CHOSEN 0–3

Seen, not chosen.

The attention is there. Trust is leaking before the booking.

BOTH 4–6

Seen and chosen.

Protect it, and keep compounding.

Wherever you landed, there's a next move.

A Distance Audit maps where travellers find, check and choose, and where your best asset shows up too late. Two to three weeks.
